

April 29, 2011

SIFCO Applied Surface Concepts has successfully passed its recertification audit for the Korean Registry of Shipping – a key approval for the use of selective plating in the marine industry.

SIFCO ASC provides job shop plating services worldwide, on-site and its seven facility locations.

Key industry specifications:

Mil-Std 2197 (SH) - Brush Electroplating on Marine Machinery

Mil-Std 865 - Selective Brush Plating, Electrodeposition

AMS 2451 - Plating, Brush, General Requirements
